Friends of the Utopia Gristmill and Park focuses on community development through the conservation and preservation of the local natural, agricultural and cultural resources within the Township of Essa and Hamlet of Utopia. Active since 1992 and operated by volunteers, *Friends* was incorporated as a non-profit organization in September 2006 and serve as the stewards of the Utopia Conservation Area in partnership with the Nottawasaga Valley Conservation Authority and support from Essa Township. The volunteer-based organization has been responsible for the raising of well over \$800,000 for local conservation projects. Based out of the nearby Utopia Hall, *Friends* have raised these funds through the tremendous energy of devoted volunteers who spearhead an extensive array of initiatives ranging from concerts and dinners, bake sales and bar-b-q's to sales of compost, as well as through donations and grants from the Township of Essa, the County of Simcoe, NVCA, the Province of Ontario, the Government of Canada, and private organizations and individuals. **SOUPALICIOUS** was created and is supported by **The Compost Council of Canada**, the national non-profit organization dedicated to advancing organics recycling and the return of organic matter back to our soils for healthier food, cleaner water, richer biodiversity and a calmer climate.
